

BREAD

BOARD FOR RESEARCH EDUCATION AND DEVELOPMENT

e- newsletter
Vol:4/Jan/2019

FROM THE FINANCE IN-CHARGE

“No child should be deprived of education because of hunger”, BREAD strongly believes so and is the reason why BREAD reaches to the innermost interiors of villages which are still the most deprived sections of the society where children are the most voiceless and marginalized.

Working with BREAD is although challenging but also the most satisfying in terms of the significant contribution towards a better tomorrow. Experience of working with people of different cultures increases our adaptability to different cultural demands and behavioral expectations and ability to handle sensitive situations.

INTRODUCTION

The year 2018, especially the last quarter had been a time of rigorous work, accomplishing the regular and extra tasks. Well, the year ended with a great sense of satisfaction. Through this first edition of 2019 BREAD brings to you the last few happenings of the previous year 2018. The quarter witnessed completion of developmental projects undertaken by BREAD at various schools for economically weaker section. BREAD also continued with its response to the people affected in Kerala deluge 2018. The edition also gives a glimpse of the regular work carried out by BREAD. Hope this volume helps all the readers to have continuity with our endeavors and be updated.

Mother's Care Scholarship Distribution Program : Jankalyan Gramin Vikas Samiti, Patna

It is indeed a moment of great relief and gladness that BREAD could complete the distribution of scholarship cheques to 124 students covered under the program. We were privileged to have with us Mr. Ashish Srivastava, our CSR donor representative, who enjoyed his interaction with the students.

Mary's Meals
BREAD carried out its annual monitoring visit to the centers. From 13 to 16 Oct,2018 visited centers in Rajasthan, 24 to 27th Oct,2018 visited centers in Varanasi and 13 to 15th Dec,2018 visited Patna, Barwadih and Ranchi. The feeding to stock maintenance everything was evaluated in detail.

School Improvement Program

Along with education, a school with proper infrastructure and all basic facilities, is also the right of every child. The transformation of schools into business has made the access to the schools of impoverished very limited. The schools in the village or say, for the villagers are not equipped with all that is needed in the environment of schools. BREAD this year, adopted 4 schools deep inside villages to support the structural development. Thus, attempting to take care of the behind the screen necessities of each child, required to be fulfilled for the holistic development of any child.

BEFORE

AFTER

BEFORE

AFTER

CDM High School, Kuwakhara, Amroha, UP

- **BREAD supported the school to spread interlocked bricks in the ground. This has reduced the possibility of sand storm during summers and a lawn in the middle of the ground is a wonderful place for children to play and sit.**
- **The school refurbished the washrooms & have made the visit more hygienic. The school has been able to spread tiles on the floors, walls and have laid the new closets even.**
- **Also, the school had been able to develop a play garden for the junior kids, containing every kind of ride expected.**

BREAD had been instrumental in spreading interlock bricks in the assembly ground as well as in building a stage with roofing at the assembly ground for the performances on various occasions.

MAHATMA GANDHI ADARSH HIGH SCHOOL

**Mahatma Gandhi Adarsh Vidhyaly,
Khanudih, Varanasi, UP**

**Seva Sadan School, Tamesara,
Rajasthan**

The joy of riding swings is more than the joy of just playing. With the help of BREAD, the school has been able to provide children with a play park, with enough swings for them to enjoy their play time.

BREAD had assisted the school in setting up a computer lab and including computers as a subject in their syllabus.

St.Mary's School Baijalpur, Ballia, UP

Mother's Leap

BREAD was able to visit 10 Mother's Leap beneficiaries studying at St.Mary's Community College ,Jharsuguda, Odisha. The financial succor is provided to these students to be trained as Nursing Assistant.

BREAD has also identified 11 girls from Kerala, who were affected by the deluge to be helped for their higher education. They had been registered with BREAD and their application is being processed, soon they will be assisted.

BREAD conducted Life Skill classes for the students at Holy Child Hindi Medium School, Ghaziabad. The themes like 'Preparation for exams' & 'Body Safety' were taken for students of various grades.

BRIDGE

► Its a program through which BREAD tries connecting dots of humanity. There are many youths outside India, who seek for an opportunity to work for the marginalized in India. Especially the children of our sponsors, are willing to spend time in the projects their parents are contributing.

► We were glad to have with us in the last quarter Caspar and Philippia from Germany. They spent more than two months teaching the children at St.Alphonsa school Akhwantpur, UP. The school building as well as few students are supported by BREAD under Mother's Care. They also paid visit to various Mary's Meals centers in and around Delhi

CSR PARTNERS' MEET

In India existence of many NGOs can never seem to be superfluous, in fact is a possible solution for the struggles of the impoverished and marginalized. Magneti Marelli Company one of our donors organized a two days workshop on 29th & 30th Nov, 2018 for all the NGOs funded by them. All the staff at the national office participated in the meet. The workshop became a wonderful forum to create networks and know other stakeholders. Also a time to recapitulate various guiding principles for working in a social sector. The legal aspects to the procedural requirements all were covered during the meeting.

**“नीम तले झूले पर झूला, हमे झूलाओ भैया जी,
तेज तेज से पैंग बढ़ाना, हमे सिखाओ भैया जी ।”**

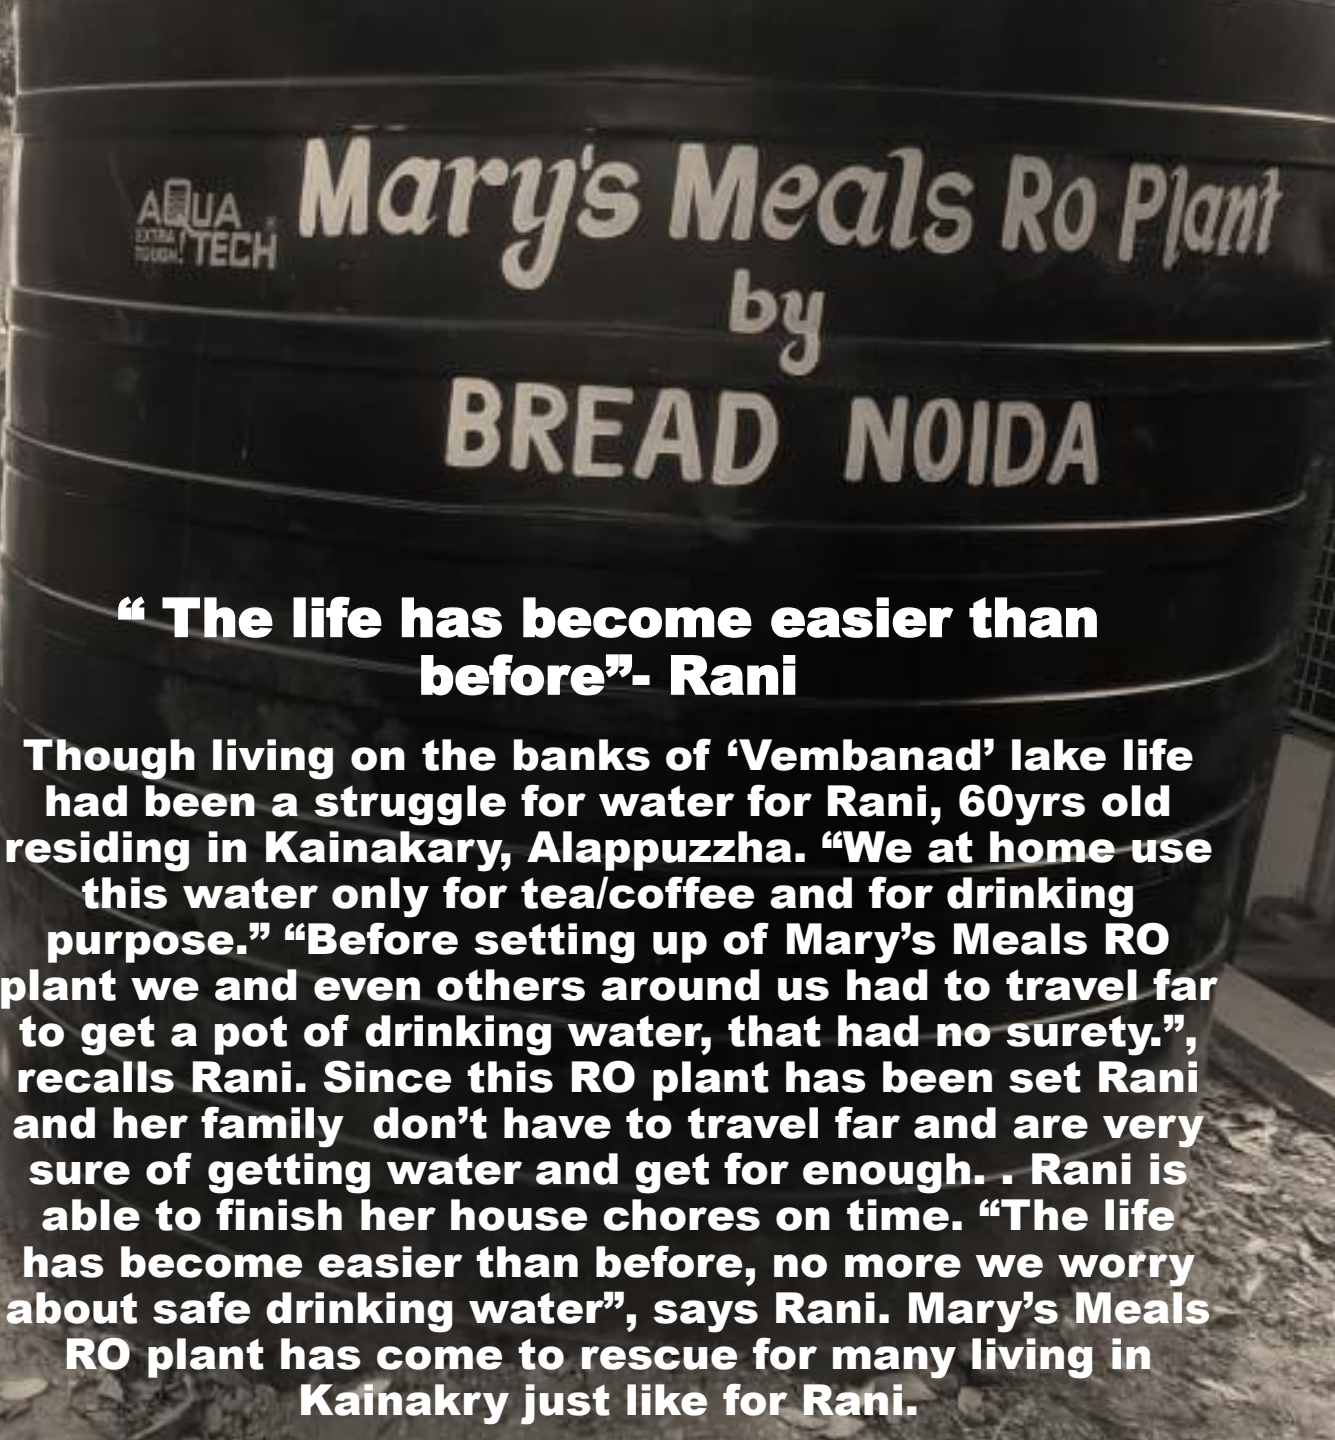

All throughout when the swings go up and down Simran and her friends are happy reciting the poem. They become louder when the swing soars up high. Giggling and laughing Simran is swift in transiting from one ride to the other. She responded “फिसलन पट्टी (slides)” when asked which ride she likes the most, as it does not require much strength. Simran is now more happy coming to school as the school has rides to play on. The story is same for all other kids in the school. The rides give them a break from the studies and definitely climbing up and down , is not only taking care of their emotional well-being but also the motor development is taken care of.

Right from the heart!!!

Right from the heart!!!

“ The life has become easier than before”- Rani

Though living on the banks of ‘Vembanad’ lake life had been a struggle for water for Rani, 60yrs old residing in Kainakary, Alappuzha. “We at home use this water only for tea/coffee and for drinking purpose.” “Before setting up of Mary’s Meals RO plant we and even others around us had to travel far to get a pot of drinking water, that had no surety.”, recalls Rani. Since this RO plant has been set Rani and her family don’t have to travel far and are very sure of getting water and get for enough. . Rani is able to finish her house chores on time. “The life has become easier than before, no more we worry about safe drinking water”, says Rani. Mary’s Meals RO plant has come to rescue for many living in Kainakry just like for Rani.
