Mary's Meals – Story of Change

Mother's Leap – Story of Change

Fr. Siby – Mary's Meals  
Regional Coordinator,  
Jharkhand

Education is a process of giving and making life. The whole human story and history revolves around this process. It is the most important investment both for the present and future, very specially. There is nothing which can substitute this process and investment. The individual and the society that gives prominence and priority to this, outsmarts others in the ladder of development.

BREAD since its inception has been trying to promote education through its vision, 'Empowerment through Education'. The guiding principle has been 'beyond a generation'. Education imbued with concern and character can really transform the people and society. It reaches out to beyond limits and boundaries. The thousands of children whom the BREAD caters through Mary's Meals, Mother's Care, Mothers Leap and School Improvement Program is the result of this concern and character. It is heartening to note that the vast majority of recipients belong to the peripheries of our society whom usually all prefer to ignore, including the authorities. Empowerment of these little ones will make a positive impact in their lives and in the society.

Many generous friends of BREAD, the committed BREAD team, like-minded people have partnered with each other to make the lives of many thousands of children meaningful and purposeful. Every intervention the BREAD makes in their lives, however small it may appear, is aimed at this higher and noble cause.

## STORY OF CHANGE – Radha (Mary’s Meals Beneficiary)

A usual day at school for 7 years old Radha is lots of studies, drawing, playing hide and seek and skipping using a rope. She is very vocal in sharing her interest in studying and join armed forces one day. Her mother too shares of Radha’s zeal for education but is inhibited in dreaming the same dream. “We are very poor, I don’t know whether we can help her complete her studies.”, said the mother. Belonging to Musahar community, life treats Radha and her family unfairly than just being only poor.

The Musahar community, a dalit community, are at the lowest strata in the hierarchy of the caste system. Hit by the poverty and social discrimination, the community is since generations economically and financially deprived. They indulge in rag-picking for their living and even brew liquor.

She does not like missing the school, enthusiastic to study and daily Mary’s Meals in school keeps her motivated. Radha when asked whether there is time when she misses her school., “Eldest of all the four children, some days if my siblings are not well, I must stay back at home, otherwise they are taken care by grandmother. My parents cannot miss to go for work on any day, or else we will not have anything to eat that day.”

For little Radha life is tough but Mary’s Meals is a relief, especially for the parents who don’t have to worry for food for their children on a school day.

## STORY OF CHANGE – ADITYA XAVIER Mother's Leap Beneficiary

### From almost a drop-out to a Draftsman (Draughtsman):

Aditya reached out to BREAD totally puzzled after completing his 12<sup>th</sup>. As he is from an economically poor background, he had to halt a while before resuming his higher studies. At the right time Marelli Company through BREAD extended its support to Aditya to pursue his dreams without any hindrance. He was much interested to be a Draughtsman. With great perseverance Aditya was able to complete his course successfully. Currently he is working in a well-known firm under the Design Department. He is grateful to BREAD and Marelli who paved way for him to excel in his life.
