Mary's Meals : Education on full stomach

BREAD is a source of food and education to more than 38106 poor children, living in extreme poverty. It ensures health and education to the poorest of the poor. Children from streets, urban slums and far flung rural areas are shown the way to school. It promises one-time nutritious meal daily.

Mother's Care: Education uninterrupted

BREAD shoulders the burden of education for more than 2100 students every year. The daily expenses of education become reason for many to drop out and BREAD tries to minimize these obstacles through scholarships.

Mother's Leap : Education to survive

It is a unique program that helps skills for living. Financial support is extended to youth for skill development, job oriented training and professional education. More than 50 students are supported every year with the payment of the fees at their institution.
